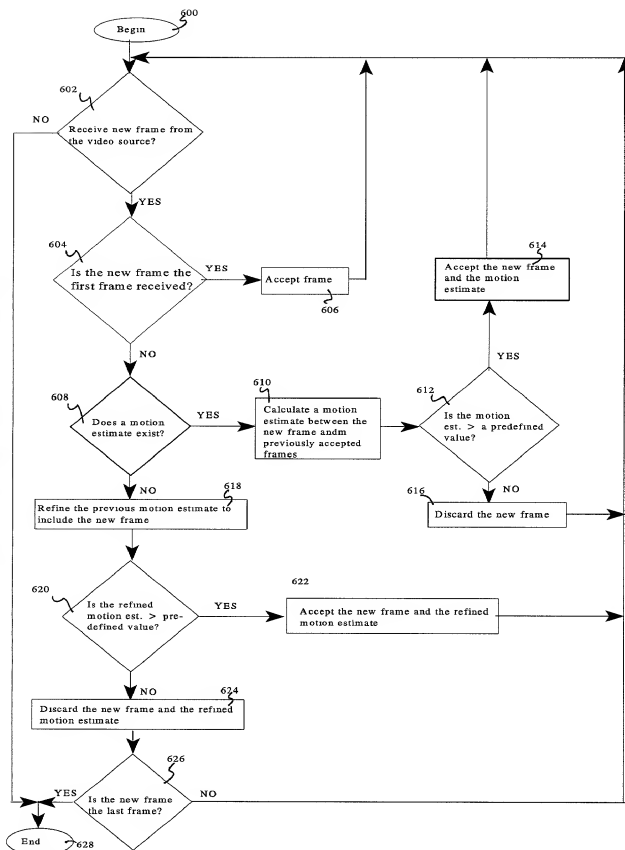

FIG 6

**Figure 7. Final reconstruction of House.**

**Figure 8. Final reconstruction of Basement.**

**Figure 9. Result of shot boundary detection on the sequence Sceneswap.**

**Figure 10. Preprocessor result for the sequence TriScene.**

Figure 11. Frame rate independence for the sequence Stove.

Figure 12. Final reconstruction of Stove.

**Figure 13. Final reconstruction of Room.**

**Figure 14. Side view of reconstruction of David.**

**Figure 15. Top view of reconstruction of David.**

Some frames from House.

Some frames from Basement.

One frame from each shot of the sequence Sceneswap.

Two frames from each shot of the sequence TriScene.

Some frames from Room.

Some frames from Stove.

Some frames from David
